SINCE
Medicated Well-Water.

A Specific for DYSPEPSIA and
DISEASES OF THE KIDNEY.

HAS been used with most gratifying suc-
cess in many obstinate cases. Prof. W.
Chapman, professor of Chemistry at the Uni-
versity of Cincinnati says this water "belongs
to the same class with that of the Hot Springs
of Virginia," the medicinal virtues
of which are well known to be stated here.

Those who desire to try this famous water
are referred to Captain C. W. Boyd, Louisville,
Ohio; Captain C. M. Holstweg, Cincinnati,
Ohio; J. J. Rapp, Cincinnati, Ohio. For sale
in half barrels and up by
J. B. MITCHELL, U.S. Dispensary, Cincinnati,
Ohio.

HANGING BY A THREAD

GRANT ENTERTAINS A MOMENTARY
HOPE OF RECOVERY.

"I wonder if I will Get Well Again?
The Chances Are a Hundred to One
Against Me!"—A Choking Fit Will
End Me!—Hemorrhage.

NEW YORK, April 8.—After dressing Gen.
Grant's throat, Dr. Douglas remarked that it
looked better than on Sunday. This remark
evidently improved the general hopefulness,
for some minutes later he said to Dr. Sherry:
"I have been wondering if there might be
a possible chance for me to get about again.
I suppose the chances are a hundred to one
against me, but sometimes I feel that I shall
get better. I think I have another choking
spell, that will end me very quickly. If
you doctors can tell how long a man can live
under water when he is drowning, you can
judge how long it will take me to choke when
the fit comes on. If no choking fit comes, I
think now that the chances favor my linger-
ing for some time, as I have got along so well
in the past two days."

The doctors expressed full agreement with
the general view. The general, lying in his
chair and tramped about the room as
though he felt himself squarely faced toward
recovery.

Messengers were just sent from Gen.
Grant's residence summoning Drs. Barker
and Sherry. Ex-Senator Chaffee and Gen.
Badeau were also sent for. The general
condition has taken an unfavorable turn.

Just before 4 o'clock the lights in all the
rooms in the Grant house were turned on in
full force. At the same time two messengers
ran out with messages for Dr. Sands and
Dr. Sherry. Another boy came out
summoning another and ran to the residence
of the general and filed messages for Gen. Badeau,
Dr. Newman, ex-Senator Chaffee and Senator
Stanford. Gen. Badeau arrived at the house
within twenty minutes. He ran hurriedly up
the steps and the door was open before he
could ring, and anxious faces at the window
saw that the others were impatiently await-
ing.

No news is yet obtainable, but the fact
that Dr. Sands is summoned would indicate
that a surgical operation is demanded, as he
attends solely to that part of the medical
treatment of the case.

"Gen. Grant sleep well until he awoke and
took his nourishment. Immediately after in
a paroxysm of coughing he had a slight
hemorrhage, which ceased spontaneously in
a few moments. Drs. Sands and Sherry
were sent for and found the general quiet as
usual, having had no renewal of the hemor-
rhage."

"DOUGLASS AND SHERRY." Dr.
Douglas says he would assist everybody in
order to relieve the family's anxiety. He
says Gen. Grant is quite as well now and the
trouble will probably not recur.

Dr. Sherry just said: "Gen. Grant is quite
may, and no renewal of the hemorrhage is
anticipated."

Dr. Sands has just arrived with his instru-
ments. Senator Chaffee and Buck Grant
came up a moment since.

Dr. Sands has left the house, and says no
operation will be performed. Dr. Newman
arrived a few moments ago. There is good
hope that the general will recover. He is
not yet fit to sit up, but he is relieved about
it, it will prove fatal. The doctor's promise
a bullet in a few minutes.

Senator Chaffee just came from the house
bright arterial blood from the throat and not
from the lungs. He thinks the general may
live till night.

Senator Chaffee thinks the danger is over
for the next hour or two. The general just
nearly a teaspoonful of water. He was perfectly
composed and gave directions. He was per-
fectly composed and gave directions. He was per-
fectly composed and gave directions.

Dr. Sherry says Gen. Grant is asleep and
doing as well as can be expected under the
circumstances. The doctor does not think a
formal bullet will be issued for an hour.

Dr. Newman has just left the Grant man-
sion. Another hemorrhage is liable to occur
at any moment, but as to the result the doc-
tor declines to prognosticate. It is believed
the general cannot live but a few hours.

"Grant's condition seems to remain un-
changed. He has taken his food without
pain. His pulse is still steady and firm.
There has been no recurrence of the hemor-
rhage. His mind is clear. He replies to ques-
tions and gives evidence of the same uncom-
plaining firmness which has characterized
him during his entire sickness."

"SHERRY, M. D." The hemor-
rhage remains arrested. It has made a
marked impression on us all.
(Signed) "DOUGLASS."

"Gen. Grant has just awakened. His
pulse is the same. There is no return of
hemorrhage."
(Signed) "DOUGLASS."

The Peruvian minister called to
inquire for Gen. Grant and was informed
that the general was about to recover and
that the family had retired for
rest. The blood from the hemorrhage
was sent away from the throat and not
from the lungs. It indicated some slight
progress of the disease.

The hemorrhage in the throat ceased nat-
urally without any stipulation application. The
hemorrhage was arterial, not venous blood.
The general seems to be at full vigor.
The hemorrhage was due to some increase
of the disease induced by a momentary fit
of coughing. The probabilities are that the
general will survive the disease.

It is reported that Gen. Grant is steadily grow-
ing weaker. The doctors have not expressed
any decided opinion about the return of
hemorrhage, but it is apparent that it is
imminent. Dr. Sherry remained in the
house and watched closely every symptom.

Dr. Douglas, who directs the nurses all things,
says after he had given the patient
considerable morphine, and under its effect
the general lay in a sort of stupor. He has
been unable again from much, but the aid
of his physicians, but his escape left him
much weaker.

LATENT.—Dr. Barker has left the house

THE WINTER IN NORTH CAROLINA.

Rain, hail, sleet and snow. Materially Af-
fect the growing crops.

RALPH, April 8.—The winter for the
past three months has been the severest and
most persistent experienced here for many
years. There has been an unusual quantity
of rain, hail, sleet and snow, and the frost
has been frequent and severe.

Very little outdoor work has been done by
the farmers. Plowing that should have been
done five weeks ago has just been com-
menced. The garden and truck farms are
all late, few seeds having been planted. The
wheat and barley are seriously hurt, but so
badly as the oat crop. The farmers are
now sowing spring oats in the hope that May
and June may bring a more favorable season
for a crop. All over the state there will be
an immense increase in the acreage of the tobacco
crop. Experiments are being made in a
number of counties where this weed was
never before known and with encouraging
results. The amount planted will be nearly
twice that of last year. The price is not
likely to decline for many years, and the
crop is now highly remunerative. The cot-
ton acreage will be as much less as the tobacco
crop is increased.

WINNING WESTERN WAYS.

Immense Land Frauds Unearthed in the
Land of the Famous Traveler.

LITTLE ROCK, Ark., April 8.—The attention
of the interior settlement has been called
to the gigantic swindle which has been
practiced upon upon the Germans by a few
sharpers in south Arkansas. The investigation
of the matter, which is now in progress
in Lafayette, Columbia, Union and Ouachita
counties, has implicated fifteen persons
and unearthed 300 cases of fraud. Large lands
have been sold to the Germans at a price
of one-half of their value. The investigation
of the matter, which is now in progress
in Lafayette, Columbia, Union and Ouachita
counties, has implicated fifteen persons
and unearthed 300 cases of fraud. Large lands
have been sold to the Germans at a price

THE FIELD OF LABOR.

Two Important Strikes and their Affecting
Situations.

CHICAGO, April 8.—The entire force em-
ployed in the city of Chicago, including
printers, foremen and other mechanics, to-
gether with laborers, 1,000 men in all held
a meeting on Blue Island, where they agreed
to strike on Monday. The company managers,
feeling violence, telephoned to the Human
street station, and several policemen hurried
to the scene. The strikers are determined to
proceed on strike.

JULIET, Ill., April 8.—Matters are be-
coming more threatening. The strikers,
quarantined, are armed with pistols and
rifles, and the work of the strikers will
not be resumed. The sheriff is deter-
mined to keep the strikers from the
mine. The strikers are determined to
proceed on strike.

BALTIMORE, April 8.—Thomas Cooper, the
negro who ravished Miss Kate Gray on
Thursday last in Baltimore county, and for
whom hundreds of irate citizens have been
seeking the country, was captured near
Rockland by two colored men and a white
man. They brought him to Towson jail and
delivered him into the custody of Sheriff
Knight.

The news of the capture of the villain soon
became known and a crowd quickly gathered
around the jail. The temper of the people is
such that Sheriff Knight deemed it advisable
to remove Cooper from the jail and to place
him in the custody of his deputies. A party
for Baltimore with Cooper about midnight
arrived at the central police station in
this city, where the prisoner is now confined.

JUSTICE CHEATS JUSTICE.

The Negro, Cooper, Captured But is Yet Un-
dermined.

BALTIMORE, April 8.—Thomas Cooper, the
negro who ravished Miss Kate Gray on
Thursday last in Baltimore county, and for
whom hundreds of irate citizens have been
seeking the country, was captured near
Rockland by two colored men and a white
man. They brought him to Towson jail and
delivered him into the custody of Sheriff
Knight.

DESTROYING CATHOLICISM IN CHINA.

Six Protestant missionaries have been
Oceanside, which has arrived here, brought
news that the vicar of the Yun Nan and
Kwo Chong provinces, who was a decree
commanded the destruction of all Roman
Catholic churches. The decree also order
all foreigners. Reports have reached
Shanghai that several Catholic settlements
have already been destroyed, and several
hundred converts killed. The village of Ki
Ta Ping, two days' journey from the vicar's
headquarters, has been destroyed, and two
priests have been killed. The only reason
assigned by the Chinese vicar for the
destruction of the Catholics was, going to
revolt against the Chinese government.

Full of Years.

MIDDLETOWN, O., April 8.—A. E. Hard-
ing, one of the oldest and most extensive pa-
per manufacturers in Ohio, died suddenly at
his country residence, south of town. He
was stricken with paralysis several weeks
ago, from which he never fully recovered.

At the time of his death he was one of the
prominent members of the Episcopal com-
munion of this city, died very suddenly of
heart disease.

GIST OF FOREIGN NEWS

CHINA DESIROUS OF CONCLUDING
PEACE WITH FRANCE.

An Impending Massacre—Bleed's Medals
Renegade Revolution Run Rampant.
A New Note—France—Vessel De-
serted—Mexico—Foreign News.

BERLIN, April 8.—From a high official
source information has been received at the
Berlin Foreign office, confirming the rumor
that China is really desirous of concluding
peace with France, and is even prepared to
pay a small indemnity, but China would not
think of consenting to terms in the least
humiliating. It is believed here that peace
would be easily arranged could a cabinet
d'affaires replace the Ferry ministry. The
celebrities have any number of men and all
the arms and ammunition they need.

The Chinese are, however, very short of
money. The Chinese representatives at Ber-
lin lately endeavored to raise a loan of \$5,
000,000, but failed. Col. Tchang Ki Tung ex-
plained that, though Sir Robert Hart en-
joyed the entire confidence of the Tung Li
Yamen, and had been encouraged to sound
Mr. Ferry through an agent as to the possi-
bility of concluding peace, yet the Chinese
government had officially held carefully
Tchang Ki Tung back and not say more than
this, although his knowledge of the posi-
tion of affairs really goes further.

An Impending Massacre.

WINNIPEG, April 8.—The rebels have most
successfully frustrated the attempt of Gen-
eral Middleton to surround the rebel garrisons
by the railroad track for many miles be-
tween Medicine Hat and Calgary, and shut-
ting off all communication with the rebels.
The rebels are expected and is the cause of serious dis-
turbance in the sending of troops.

Hundreds of the rebels and their wives and
children are surrounded by the rebels and
unless the army can be sent to their relief at
once a massacre will take place as the settlers
have no means of getting supplies and must
eventually yield. Gen. Middleton is exasper-
ated at the delay, and telegraphs that he will
make a bold dash at the rebels with the few
troops he has with him and risk the result.

Latest from the Front.

WINNIPEG, April 8.—A courier who left
Battledore, April 1st, has reached Swift Cur-
rent and reports that when he left all the
while people were still safely secured from
attack in the barracks, with ample provis-
ions and ammunition until relief comes.

The Indian warlike state of the town, but
no further demonstrations anticipated from
them. Some families which left Battledore
March 30th, arrived safely at Swift Current
yesterday and about the town.

WINNIPEG, Man., April 8.—Riel has formed
a provisional government, with himself as
provisional president, Alexander Fisher, lieutenant-
general, and a number of other men as mem-
bers of the council.

WINNIPEG, Man., April 8.—Riel has formed
a provisional government, with himself as
provisional president, Alexander Fisher, lieutenant-
general, and a number of other men as mem-
bers of the council.

WINNIPEG, Man., April 8.—Riel has formed
a provisional government, with himself as
provisional president, Alexander Fisher, lieutenant-
general, and a number of other men as mem-
bers of the council.

Vessel Disabled.

QUEENSTOWN, April 8.—The White Star
steamer Germania, which sailed from this
port for New York Friday last, has returned
in a disabled condition. She was disabled
on Wednesday night, and on Thursday
she encountered a terrific tidal wave
which sprung her plating and stove in the
bulkhead of the reading room, and washed
everything movable overboard. The steam-
er was thrown on her beam ends and the
passengers prostrated with horror. The cap-
tain decided it was perilous to continue
the voyage, and turned back for this port.

One man was washed overboard and
drowned. The passengers are unanimous
in the belief that with a competent captain
the vessel would have fared better.

Against the Wales.

DUBLIN, April 8.—There was a numerously
attended meeting of the members of the
national league held here. Addresses were
delivered by Mr. O'Brien and others.
The speakers without exception denounced
the funkiness displayed by the Irish loyal-
ists in the preparation for the coming of
the rebels. The speakers were unanimous
in the belief that the rebellion was pro-
pounded, and thus not only foil the obsequious
aims of those who had caused the decorations
to be placed throughout the royal
route, but at the same time such the help
apparent that today of a few Irishmen
could not be accepted as expressing the will
of the people of Ireland's nobility. The
prince and princess of Wales left London
for Holyhead, and they will cross to Kin-
gston and reach Dublin early to-morrow morn-
ing.

The French Cabinet.

PARIS, April 8.—It is officially announced
that M. De Freycinet has been appointed
minister of foreign affairs in the new cabi-
net. Mr. De Freycinet is a member of the
cabinet. Gen. Camille, minister of war, and
Admiral Gaillet, minister of marine; min-
ister of public instruction, M. Goblet; public
works, M. Sadi Carnot; agriculture, M. Ferré
Legrand; commerce, M. Hery Maugon; posts
and telegraphs, M. Sarrien. The new cabinet
will probably succeed M. Brissot as
president of the chamber of deputies. The
members of the republic union will sup-
port the candidature of M. Ferry. The new
ministry will be anti-Ferry in character.

France's Policy.

PARIS, April 8.—In the chamber of de-
puties M. Brissot, the new premier, announced
the policy of his cabinet on the Chinese ques-
tion. M. Brissot said that France would in-
sist upon recognition by China of her rights
in Tonkin. He said that the policy of France
was to maintain the integrity of the empire.
He said that France would not be made by
the governments to arrive at a peaceful
solution of the Chinese question. He said
that France would not be made by the govern-
ments to arrive at a peaceful solution of the
Chinese question.

Famous Plugs.

MORGAN, April 8.—Mrs. Gen. Custer sent
to the management of the soldier's home
carnival at Boston, the first of the series
of carnivals. The management of the carnivals
was led to the first surrender of Lee. The
flag sent in by Lee was an ordinary crash
towel, and when it was sent in by a knife
was a linen handkerchief marked M. Zull.
They have been a part of the Carter raffle for
years.

declare war.

M. Brissot asked the chamber
for further credit of one hundred and fifty
million francs.

get the Hostile.

PARIS, April 8.—The chamber of deputies
voted 150,000,000 francs for the credit asked
for by M. Brissot. France premier, for war
purposes in the Tonquin.

In Colon.

WASHINGTON, April 8.—The following tele-
gram from Colon was received by Secretary
Whitney: "Nothing new to report, only the
Panama railroad company are at work get-
ting the road in order. The government
troops are anxious about the prisoners. The
railroad company and the sailors are feel-
ing the troops, who are all in need. There is
great anxiety among the foreigners at Pan-
ama."

OKLAHOMA ONCE MORE.

Boomers Still Linger in Camp With
Hopes of Success.

ARKANSAS CITY, Kan., April 8.—Quite a
new phase has been put upon the entire Okla-
homa movement by the decision of the col-
onists to send Capt. Couch to Washington in
order that the alleged false reports regard-
ing their intentions might be honestly placed
before President Cleveland and the secretary
of the interior. This was done in order to
offset to the reports which the cattle men
and opposers of the Oklahoma movement
were circulating, and in Washington, and which
do the boomers great harm.

The Couch colony, it is claimed, is not a
gathering of idle vagabonds and adventur-
ers, who make a business of defying the law
in order to accomplish their end, but are
peaceable citizens, and the great majority
are farmers, who are anxious to settle them-
selves under the homestead act in the
Oklahoma country.

They have all along claimed, they say,
that the lands were open to settlement under
the act by which they were purchased from
the Indians, and that was not for the ben-
efit of the cattle interests of the country.
Oklahoma would long ago have been settled
as thickly as Kansas. The men here are as
determined to reach Oklahoma as they were
when Capt. Payne first marched into the In-
dian Territory, but they will not go in the
face of the president's proclamation and the
several laws of the United States.

They will now wait until Couch returns. It is
thought that Capt. Couch will depart for
Washington immediately via Kansas City
and Chicago.

When Gen. Hatch came back to Arkansas
City he was met by his chief scout, Baugh-
man, with the information that the boomers
camp had grown considerably in numbers
since Friday, and that the colonists were re-
determined as ever to occupy the country.

On the first of March, when the first ar-
rivals were made here by the United States
marshals, there were about five hundred
boomers, and now there are about a thousand.
They are fully 1,000, and within twenty-five miles
are at least 500 more, who are camped along
the Arkansas river, and are camping in places
where they can keep track of what is
being done at headquarters.

SUCCESSFUL STRIKERS.

Illinois Quartermen and Pennsylvania
Miners Masters of the Situation.

JOLIET, Ill., April 8.—The strikers in the
stone quarries are masters of the situation.
They have visited all the quarries and have
put the deputy sheriffs and men who had
gone to work to flight. No one was seriously
hurt and the quarries are all idle. The gov-
ernment will have to order out the militia
to break up the strike.

The sheriff has sworn in additional deputies
and another effort will be made to protect
the new force. Trouble there, however, the
strikes are determined. So far the posse of
sheriffs has refused to open fire on the
strikers.

PITTSBURGH, April 8.—The action of Joseph
Walton & Co., in granting the rate de-
manded by the river miners, has had the ef-
fect of bringing the miners back to work. The
rate has been reduced to the rate of the
quarries, and within three days the entire river
district will be in operation at the advance.
The rate is prevalent, however, the op-
erators will now crowd their mines with
stone, and thus cut the spring run down to a few
cents. No new developments are reported
from the railroad district.

A Murderer Surrenders Himself.

ST. THOMAS, Ont., April 8.—Samuel Mitch-
ell came to the residence of the chief of police,
and taking a huge Colt's navy revolver
from his pocket handed it to the chief with
the remark: "I have just shot Alexander
McIntosh. He is lying dead in my house.
I could not stand it any longer. I want
to give myself up. The chief
accompanied Mitchell to the house,
and found McIntosh's body in the hall-
way up stairs, dead. The brains were coming
from a hole in his head. The chief at once
took Mitchell to the lock-up and notified a
coroner. Mitchell is well-known in the city,
and formerly kept a hotel in the vicinity.
McIntosh had long been intimate with Mitch-
ell's wife, and when Mitchell was found
dead McIntosh there, he lost control of his
self, and the tragedy was the result.

Another Hero Ambler Mystery.

NEW HAVEN, Conn., April 8.—The evi-
dence of another murder, the first of the
year, was brought to light here, below the city.
Ferdinand discovered the body of a beautiful
woman of medium size about thirty-five
years, well dressed, lying on the beach partly
in the water. The coroner and medical ex-
aminer were summoned and the body
was taken to the morgue. There was
nothing about the woman to show who she
was, except a gold ring the inside of which
was marked "E. to M." On her throat were
two wounds, evidently made by a knife at
some other sharp instrument. Her shoes
were filled with coal dust, which may indi-
cate that she was aboard some coal schooner or
motor.

Famous Plugs.

MORGAN, April 8.—Mrs. Gen. Custer sent

years.

ORIGIN OF "ARBOR DAY"

GOVERNOR MORTON, OF NEBRASKA,
FIRST TO PLANT TREES.

Complicated Condition of the Winnebago Reservation—National News of General Interest—The Dolphin's Price.

WASHINGTON, April 8.—N. H. Eggleston, of the forestry bureau of the department of agriculture, answers the question which has recently been raised among people—"Who invented Arbor Day?" Speaking of the origin of the custom, he said:

"For the suggestion of an annual tree-planting day we are indebted to ex-Gov. J. Sterling Morton, of Nebraska. Feeling as the early settlers in the prairie states could not feel, the lack of trees for fuel, lumber and shade, as well as to protect them from the blizzards of winter and the scorching winds of summer, they were almost compelled, as one of their first necessities, to plant trees to some extent. But this was done in an unsystematic manner, and was limited for the most part to the planting of a class of trees like the cottonwood, of comparatively little value.

Gov. Morton saw that this unsystematic manner of planting would never meet the needs of the rapidly increasing population and the great objects to be secured by a proper supply of trees throughout the state. Accordingly, he suggested that a particular day should be fixed upon in each year to be observed as tree-planting day, the object being to fix attention upon the subject, to engage the people generally in the work, and to stimulate them by the knowledge that they were engaged in a common and wide-spread undertaking, and to give them an initial point from which they might carry forward the work as extended as they might be inclined to do. It was not designed to limit the work to a single day in each year. It was further to be stimulated also by the offering of premiums by the state, by towns, or by agricultural or other societies, for the largest number of trees planted.

The suggestion of Gov. Morton was well received. The state agricultural society designated the 30th day of April, 1872, to be observed as "Arbor Day," and so generally was it observed that it is claimed that 12,000,000 trees were planted on that particular day. Since then it has been regarded with increasing interest.

The Winnebago Reservation. WASHINGTON, April 8.—Frank Cleveland had had a consultation with Secretary Lamar in reference to the status of the Winnebago reservation settlers. No conclusion was reached and a further conference will be held. It is believed that the department apprehends serious trouble if the government should attempt to eject settlers from the reservation. An official of the department remarked:

"The president opened these lands to settlement, and the people sold out their positions, went into the reservation and located homesteads. The attorney-general now says the president's order is invalid, and it becomes the duty of the interior department to eject settlers. We may congratulate ourselves if the attempt to do so does not result in bloodshed."

SOUX CITY, Ia., April 8.—Specials from Dakota points say there is great indignation and surprise over the news from Washington that the Winnebago and Crow Creek reservation had opened to settlement by the proclamation of ex-President Arthur is to be withdrawn.

There are now nearly 3,000 families on the lands, many of whom journeyed from long distances, and have every dollar they own invested in their claims, and are actively at work making improvements. It will be a great hardship to these unfortunate people to have to leave now, and there may be considerable trouble to remove them if they should show a disposition to resist, which it is believed they will.

The Dolphin's Price. WASHINGTON, April 8.—The secretary of the navy has decided to designate three persons who have not been connected with the construction of the new steamer Dolphin, to assist him in passing upon the final payment. The secretary notified the board of his action to obviate the relief that it arose from an intention to reflect upon the conclusion reached by the advisory board.

National Notes. WASHINGTON, April 8.—The commissioner of internal revenue has requested the attorney-general to suspend action on the resignation of Judge Chesley, as collector of internal revenue, until the collector shall have completed certain important work on which he was engaged when the request for his resignation was made. It is said that the change was made without the knowledge of the commissioner.

The collector of the treasury has approved the bond of Perry C. Smith, disbursing officer of the postoffice department. The bond is for \$40,000.

Mr. Garrison, the newly appointed first comptroller of the treasury, has entered upon the discharge of his duties.

The collector of the treasury has received an offer from James M. Harper, a former collector of internal revenue for the fifth district of Illinois, to pay \$250 in compromise of his liabilities under bond. The government obtained judgments against Collector Harper for about \$68,000.

The postoffice department has issued the following order: Hereafter Mexican domestic mails will be forwarded in closed pouches via the Mexican central railroad to El Paso, Tex., to be forwarded to destination by means of United States railroads and post-offices at Eagle Pass, Laredo and Brownsville, Tex., and other intermediate offices. These mails will be promptly forwarded to destination intact by employees of this service.

The visit to the battlefield of Gettysburg by officers and soldiers who participated in that battle will take place this year on the 4th of May. It is expected that the president will go with the party from here, and an invitation to be present has been sent to the Count de Paris.

PITTSBURGH, Pa., April 8.—Two young ladies named Agnes Johnson and Bella Goss, while returning home from Sabbath school, were struck by a large triangular sign which, with a quantity of brick, were blown from the top of a building by the heavy gale blowing at the time. Miss Goss was killed instantly, her head and body being crushed into an almost shapeless mass. Miss Johnson's head and limbs are badly crushed and her recovery is impossible. Both ladies were prominent in society.

CARPETS, OIL CLOTHS, and WINDOW SHADES.
